

Above glass awning

## markilux 8850

Exterior awning for conservatories with bevel-edged roofs.

[markilux.com](http://markilux.com)

**markilux**  
safe timeless beautiful

Product Characteristics

Wind resistance class 2  
Beaufort 5 → 7.5–10.4 m/s → 28–37 km/h → 17–23 mph

1 bottom fixture, indented guide track

1 bottom fixture, guide track moved out as far as possible

2 face fixture, indented guide track

3 view of the bogey on the front profile

4 maintenance opening in the cassette

4 awning retracted, all round cover protection

5 concealed gutter with water drainage holes to the side

examples of its use on various conservatory shapes

## Product Characteristics

### Description

- exterior awning for bevel-edged conservatories

### Special features

- the cover runs in and out above the guide tracks – the cover appearance from the exterior is ideal and gives more flexibility when fitting
- guide tracks can be indented up to 100cm – if the system is asymmetrical the difference left and right may not exceed 40 cm
- the guide tracks can overrun the last bracket position by up to 100 giving more sun protection
- fully encompassing cassette that protects the cover perfectly
- tried-and-tested tensioning system with drive belts and integrated gas pistons – delivers optimum cover tension – in any phase of extension
- optional wall sealing profile – to cover the gap between wall and awning cassette

### Dimensions

- single unit: 80–650 cm in width, maximum extension 500 cm (depending on the width)
- maximum dimensions width × extension: 500 × 500 cm / 600 × 450 cm / 650 × 400 cm
- intermediate sizes are available

### Roller tube and lateral bearings

- round roller tube Ø 95 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths
- the roller tube bearing is made of die-cast aluminium

### Awning profiles

- extruded aluminium, in façade quality, powder coated
- cassette profile in two pieces, round, Ø 187 mm
- guide tracks angular, width × height 60 mm × 70 mm
- front profile rounded at the front, depth × height 150 mm × 70 mm

### End caps

- the cassette end caps made of die-cast aluminium, powder coated
- the top maintenance cover is made of high-quality plastic, powder coated
- the front profile end caps are made of high-quality plastic, powder coated
- the front profile end caps are made of high-quality plastic, powder coated

### Fixture brackets

- extruded aluminium, powder coated
- cassette brackets: bottom fixture, face fixture
- guide track brackets: raised bottom fixture, flat track bracket
- standard bracket heights: 20 mm / 105 mm (bespoke heights can be ordered)
- other accessories are available

01 **Frame colours**

02 markilux frame colours without surcharge

03 traffic white, RAL 9016

metallic aluminium, RAL 9006

grey brown, similar to RAL 8019

07 off-white textured finish, 5233 <sup>1)</sup>

stone grey metallic, 5215 <sup>1)</sup>

anthracite metallic, 5204 <sup>1)</sup>

12 havana brown textured finish, 5229 <sup>1)</sup>

17 **Non-standard powder-coated finish**

18 Bespoke frame colours incur a surcharge – matt, metallic, finely textured and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

19 Colours may differ slightly from those depicted in both hue and finish.

1) textured finish

## Dimensions and configuration options

### Single unit

Order dimensions		Awning width										Minimum width		
		150	200	250	300	350	400	450	500	550	600	650	Hard-wired motor	Radio-controlled motor
		70	151	201	251	301	351	401	451	501	551	601		
		150	200	250	300	350	400	450	500	550	600	650		
H <sup>1)</sup>	150												70	80
	200													
	250													
	300													
	350													
	400													
	450													
	500													

dimensions in cm

1) = additional guide track overhang of 90 mm

H = extension

### General note

In the case of larger extensions, the cover may sag slightly when the awning is being extended or retracted. In windy or wet conditions and a cover area more than 16 m<sup>2</sup>, may lead to the cover coming into contact with the conservatory roof.

### Operation

	standard	optional
crank handle	—	—
hard-wired motor	✓	—
silentec motor (optionally with an external io / RTS receiver)	—	—
radio-controlled motor io, 868 MHz	—	✓
radio-controlled motor RTS, 433 MHz	—	✓
868 MHz radio-controlled motor io with manual override	—	—

### Coupled awnings

not available

### Shadeplus

not available

### Awning cover

	fabric pattern no.	standard	optional
sunvas <sup>1) 4)</sup>	300..–315..	✓	—
sunsilk <sup>1) 4)</sup>	324.. / 325.. / 328.. / 369..	✓	—
sunbow <sup>1) 4)</sup>	411..–427..	✓	—
smart art	340..	—	✓

## Fixture types

### Bottom fixture

11

### Track-only fixture

32

### Face fixture

12

### Individual bracket selection:

see "Fixtures, fittings and accessories".

### Bottom fixture:

Awning extension > 400 cm, always 2 brackets per guide track.

### Track-only fixture:

Awning extension > 400 cm, always 3 brackets per guide track.

### Face fixture:

Awning extension > 400 cm, always 2 brackets per guide track.

# Overview of dimensions

Single unit

## Versions that can be ordered

**Option 1:** With guide tracks indented. Both the R and L measurements must be smaller than the awning fixture width. In the case of asymmetrical units the difference between the L and R dimensions may not exceed 400 mm. The tolerance in the fixture width is + 5 / - 10 mm.

**Option 2:** With the tracks as far out as possible. In this case, the L and R dimensions are 50 mm.

- [...\*] = dimensions for units with guide tracks pushed out as far as possible
- 76046.** = track bracket 100 mm
- BA** = width between fixture points
- BT** = component / fixture substrate
- D1** = detail of single guide track with bracket
- DIF** = difference in measurement
- H** = **order dimension** = projection

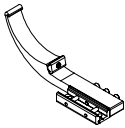

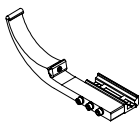

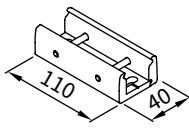

- M** = awning width
